Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Brad Spitz on 10/31/08.
3. The application has been further amended as follows:

Claim 1 has been amended as follows:

1. A computer-readable storage medium having stored thereon computer-executable components of a system that facilitates access to data, the system comprising:

a set component that identifies data sets;

a component that determines data in at least one data set to be displayed in a semi-collapsed view by selecting data in the at least one data set having a data type corresponding to a currently instantiated application selected from a plurality of currently instantiated applications, wherein the plurality of currently instantiated applications have disparate data types respectively associated therewith;

~~a button for selecting a view; and~~

a display component that displays a button for selecting a view and displays the determined data in the at least one data set in the semi-collapsed view and directly cycles through the semi-collapsed view, a collapsed view, and an expanded view of the at least one data set upon repeated selection of the button.

Claim 23 has been amended as follows:

23. An application running on a computer component and stored on a computer-readable storage medium, the application facilitates access to data by instructing communication of a signal having one or more data packets, the data packets comprising:

information associated with a button for selecting a view;

a first field comprising information associated with at least one data set to be displayed in a semi-collapsed view, a collapsed view, or an expanded view upon repeated selection of the button, the view displayed determined by a direct cycling, items displayed in the semi-collapsed view are selected at least in part by identifying respective items in the at least one data set having an information type that corresponds to an executing application in a plurality of executing applications respectively having disparate information types corresponding thereto; and,

a second field comprising information associated with another data set to be displayed in at least one of an expanded view and a collapsed view.

Inquires

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner Lê Nguyen whose telephone number is **(571) 272-4068**. The examiner can normally be reached on Monday - Friday from 7:00 am to 3:30 pm (EST).
